GERMANY GMBH

HAND TOOLS

GENERAL CATALOGUE

The new kwb Hand Tools catalogue

Dear customers,
Welcome to our new kwb Hand Tools catalogue.

For more than 80 years, kwb Germany GmbH has provided a system for the supply of power tool accessories and hand tools.

Experience, great stock availability, dependable quality, innovative thinking and action combine together to create a good, strong brand.

This is what kwb Germany GmbH stands for. It is our goal to purchase kwb items at the highest quality level from all over the world.

kwb Germany GmbH proves this day in, day out, with passion and dedication to you, our partners.

We are pleased to introduce the new kwb Hand Tools catalogue.

The catalogue has been completely modernised, and the layout made clearer. Enhanced with many attractive and innovative new products, there is also a range of important information, and tips for the correct use of the kwb hand tool range.

With this new Hand Tool catalogue we want to give you the means to develop a closer working relationship with us.

True to our slogan „...always the right tool!“ kwb offers its customers, and in turn their customers, all that they need for their workshop.

kwb Germany Managing Director Gerrit Brand, Alexander Uhl

Programme overview hand tools

Product	Item	Page
Pliers	Pliers	12 - 14

kwb symbols in product tables

In some sections of our catalogue there are technical symbols in the product tables. Here is a brief explanation of these symbols.

Pliers		Screwdrivers		Sockets	
	Plier length		Grip length T-grip screwdrivers		Bit length
Saws			Grip length DUO-LINE screwdrivers		Working length
	Toothing		Width of screwdriver blade		Drill length
Building and tiling tools			Length of screwdriver handle		Shaft diameter
	Thickness		Working length DUO-LINE screwdrivers		

...always the right tool!

PLIERS

Electronic pliers

Special pliers

Wrenches

Pliers and wrenches

The benefits of pliers/wrenches

- pliers with ergonomically shaped grips with 2-component construction
- user-friendly and comfortable working
- almost play-free joint for easy and consistent opening and closing of the plier jaws
- spanners with wave profile for more direct power transfer on hexagon or square headed bolts
- no rounding of corners on bolt heads

Range overview pliers

Pliers, Professional 38 series

★★★★★

CrV steel, matt satin finish, box joint, finely serrated grip surfaces. 2-component grip for three-way slip protection, for optimal power transfer and fatigue-free working.

Page 12 - 14

Electronic pliers

★★★★★

matt satin finish, 2-component grip for optimal power transfer and fatigue-free working, self-opening, especially for working with electronic components and in precision engineering.

Page 16 - 18

VDE pliers

★★★★★

CrV steel, box joint, 2-component grip with slip guard, for optimal power transfer and fatigue-free working, especially for working on electrical installations, protect up to 1000 volts AC or 1500 volts DC.

Page 15

kwb info

VDE insulation- safe working on live electrical installations

There are strict health and safety standards relating to work on live electrical installations, such as the German DIN VDE 0105 or the international EN 50110 as well as IEC 60364, kwb tools which bear the special ⚡ **1000 V** symbol are authorised for live working use up to 1000 V AC.

Technical terms

- Tips
- Grip surfaces
- Grip aperture
- Jaws
- Stock
- Cutter

Joint types

Overlaid joint

Both halves of the plier lie against each other without any overlap

Box joint

Both halves of the plier overlap at the joint so that they are fully interlocked

Groove joint

One half of the plier is grooved. The other half can fit into any of the grooves. The joint can withstand high loading, because the link bolt is capped both ends, and supported on both sides.

Crimping pliers

★★★★★

with non-slip 2-component grip for optimal power transfer and fatigue-free working, for stripping insulation and snipping off wires, crimping jaws for crimping insulated and non-insulated cable terminals and plugs.

Page 25

Accessories

★★★★★

kwb always has the right accessories, for cable terminals, cable ties, pop rivets to eyelets, kwb offers a wide range for every application.

Page 23 - 26

Wrenches, TuV GS tested

★★★★★

CrV steel, satin finish, wave profile, in various types and sizes, suitable for working with hexagon and square headed bolts and nuts.

Page 27 - 29

Torque wrench

★★★★★

TÜV GS tested, chrome plated, CrV steel, self-triggering automatic torque wrench with inbuilt ratchet, high accuracy, scale in Nm and lbs/ft. Measuring possible clockwise and anti-clockwise, 1/2" drive.

Page 31

Combination pliers ★★★★★

Combines the functions of several tools in one. Grips like a flat nose plier, cuts like a side cutter, and holds like a pipe wrench.

Art.-No. 386250-386450 **Page 14**

VDE combination pliers

Art.-No. 396350 **Page 15**

Heavy duty side cutter ★★★★★

Suitable for thick wire, hardened steel wire and cables. Requires minimal effort to cut these.

Art.-No. 384050 **Page 13**

Flat nose pliers ★★★★★

Two roughened flat jaws for gripping and holding objects. Due to the wider end stronger holding force can be applied

Art.-No. 381150 **Page 12**

Electronic flat nose pliers

Art.-No. 389050 **Page 16**

Heavy duty end cutter ★★★★★

Is a plier for cutting wire and cables. For electrical work, for flush cutting of cable strands, also in difficult-to-reach areas such as distribution boxes.

Art.-No. 385050 **Page 13**

Electronic front cutter

Art.-No. 389550 **Page 17**

Round nose pliers ★★★★★

With its round, conically shaped jaws especially for bending wire and shaping it into loops etc.

Art.-No. 381650 **Page 12**

Electronic round nose pliers

Art.-No. 389150 **Page 16**

Wire stripping pliers ★★★★★

Tool for easy stripping of cable insulation. Removes the outer insulation without damaging the inner conductor in the process.

Art.-No. 388050 **Page 14**

VDE wire stripping pliers

Art.-No. 398050 **Page 15**

Radio/ telephone pliers ★★★★★

Roughened flat jaws for gripping and holding objects. Due to the wider end greater holding force can be applied.

Art.-No. 381650 **Page 12**

Electronic telephone pliers

Art.-No. 389150 **Page 17**

Radio/ telephone plier, bent nose

Art.-No. 382650 **Page 13**

Chain nose pliers ★★★★★

For fine assembly work, for gripping, holding and bending, for opening chain links.

Art.-No. 381950 **Page 12**

Side cutter ★★★★★

Is a plier for cutting wires and cables. For electrical work, for cutting single strands of conductors.

Art.-No. 383150 **Page 13**

Electronic side cutter

Art.-No. 399350 **Page 17**

VDE side cutter

Art.-No. 393150 **Page 15**

Electronic pointed nose pliers ★★★★★

Especially suited for holding and positioning, because of the long pointed profile parts can be manipulated in confined spaces.

Art.-No. 389250 **Page 17**

Pliers for every application

Electronic precision pliers ★★★★★

With cutter, for working with electronic components and in precision engineering, especially suitable for holding, positioning and cutting.

Art.-No. 389750

Page 18

End cutting nippers ★★★★★

Quick twisting and cutting of wire reinforcement ties.

Art.-No. 388100-388500

Page 20

Waterpump pliers ★★★★★

Grip plier with adjustable slip joint. For holding pipes, sleeves, and all types of nuts and bolts.

Art.-No. 387550

Page 14

Self-grip pliers ★★★★★

Releasing seized bolts, clamping workpieces together or for use as a „third hand“, with serrated jaws, integral wire cutter.

Art.-No. 408000-408010

Page 20

Grip pliers with removable jaws and adjustable joint. For holding pipes, sleeves and all types of nuts and bolts, without damaging the workpiece.

Art.-No. 367850

Page 19

Box joint waterpump pliers ★★★★★

Grip plier with adjustable, grooved joint. For precise working and holding of pipes, sleeves and all types of nuts and bolts.

Art.-No. 387750

Page 14

Tinsnips ★★★★★

Easy to use for cutting sheet metal, sheet metal profiles, thin sheet steel and soft metals. Choose between left hand, right hand and straight cut. The tinsnips are so designed that left and right radius cuts can be made.

Art.-No. 407700-407720

Page 21

Art.-No. 926100-926300

Page 22

Continuous cut tinsnips

Art.-No. 407600

Page 21

Pipe wrench ★★★★★ Jaws offset 45 degrees

For holding round or flat objects. For plumbing and heating work in confined spaces.

Art.-No. 409400-409600

Page 19

Bolt croppers ★★★★★

With these bolt croppers you can easily cut strong round metal objects (cables, bolts, steel reinforcement) thanks to excellent power transfer and high cutting performance.

Art.-No. 405946-405975

Page 21

Pipe wrench with S-profile jaws

Art.-No. 409420-409520

Page 19

Pocket bolt croppers

Art.-No. 405720

Page 20

Carpenters pincers ★★★★★

For heavy duty precise work, ideal for use with nails, pins and staples.

Art.-No. 388200-388400

Page 19

Concrete reinforcement bar cutter ★★★★★

For cutting steel reinforcement web and round steel bar. High cutting performance with minimal effort thanks to optimal combination of cutting angle and force transfer.

Art.-No. 406100

Page 21

Flat nose pliers

TÜV GS tested, pattern to DIN 5258, ISO 5745, with long jaws, CrV steel, matt satin finish, box joint, finely serrated gripping surfaces, 2-component grip for optimal power transfer and fatigue-free working, for holding nails and bending wire

Art.-No.	mm			Barcode
381150	160 mm		2	4 009313 811507

Round nose pliers

TÜV GS tested, pattern to DIN 5258, ISO 5745, with long jaws, CrV steel, matt satin finish, box joint, 2-component grip for optimal power transfer and fatigue-free working, for bending and shaping wire

Art.-No.	mm			Barcode
381650	160 mm		2	4 009313 816502

Chain nose pliers

Screwdrivers

The advantages of screwdrivers

- all screwdrivers made from CrV steel
- with 2-component grip for optimal power transfer and non-slip working
- Colour coding system for the various blade types
- PROFI VDE screwdrivers tested to IEC 60900:2004 and VDE 0682, part 201

Range overview screwdrivers

DUO-LINE screwdrivers

★★★★★

Blades made from CrV steel, matt chrome plated, with chemically blacked precision tips, 2-component handle for optimal power transfer and non-slip working, colour coding system for the various blade types.

Page 37 - 39

PROFI precision screwdrivers

★★★★★

Blades from CrV steel matt chrome plated, 2-component handle, with rotating top for optimal power transfer and easy working in precision engineering, with chemically blacked precision tips.

Page 42 - 43

VDE screwdrivers

★★★★★

VDE tested, blades fully insulated, with chemically blacked precision tips, safe working up to 1000 V

Page 40

kwb info

VDE insulation- safe working on live electrical installations

There are strict health and safety standards relating to work on live electrical installations, such as the German DIN VDE 0105 or the international EN 50110 as well as IEC 60364, kwb tools which bear the special ⚡ **1000 V** symbol are authorised for live working use up to 1000 V AC.

Identification
Symbol on the end of the handle shows the blade type and size.

Hanging hole
For space-saving and orderly hanging in the workshop.

Handle
2-component grip for optimal power transfer and non-slip working.

Colour coding system
Easily recognisable colour coding system instantly indicates the required blade type.

- Slotted
- Phillips / Cross slot
- Pozidrive
- Torx
- Hexagon
- Nut

Insulation
All insulated screwdrivers are VDE/GS tested and conform to the standard IEC 60900:2004.

Blade
Chrome-vanadium (CrV) steel, matt chrome plated, with chemically blacked precision tips.

Art.-No.: 662002

Art.-No.: 653002

Design
The flat-headed rotatable top enables fine adjustment, particularly useful in precision engineering.

Handle
2-component grip for optimal power transfer and non-slip working.

Identification
symbol on the end of the handle shows the blade type and size.

Colour coding system
Easily recognisable colour coding system instantly indicates the required blade type.

- Slotted
- Phillips / Cross slot
- Pozidrive
- Torx

Blade
Chrome-vanadium (CrV) steel, matt chrome plated, with chemically blacked precision tips.

Art.-No.: 146200

Voltage tester ★★★★★

VDE GS tested, 150-250 volt, with visual indication, with clip, insulated head, insulated blade, for testing whether a voltage is present.

Page 45

Hexagon key wrenches ★★★★★

CrV steel, in plastic clip, one end with ball head, ideal for offset working and for difficult-to-access areas.

Page 46

Sockets

The benefits of sockets

- with wave profile for optimal power transfer on hexagon head bolts
- protection of edges
- also available in multi-part sets with ratchets
- ratchets of various types available

Range overview sockets

PROFI sockets

★★★★★

CrV steel, matt chrome plated, wave profile for optimal power transfer on hexagon head bolts, rounded corners, edge protection.

Page 56 - 61

Socket sets

★★★★★

CrV steel, sockets with 1/2" and 1/4" drive, ratchet with non-slip 2-component handle for optimal power transfer and fatigue-free working.

Page 55

Ratchets

★★★★★

CrV steel, reversible, ball retention with push-button ejection, with or without adjustable swivel head, matt chrome plated, with non-slip 2-component handle for optimal power transfer and fatigue-free working.

Page 60

Tool case

★★★★★

Fully equipped tool case with high quality professional tools, kwb quality. Everything is readily to hand, stored in a handy aluminium case.

Page 52 - 54

kwb info

Colour coding system for sockets

So that you can quickly select the correct socket, kwb uses a handy colour-coded packaging system. From the relevant colour you can easily distinguish the square drive size of the sockets.

- Drive 1/4"
- Drive 3/8"
- Drive 1/2"

Range overview threading tools, chisels/punches and hammers

Taps and dies, to DIN

★★★★★

HSS, ground threads, for female and male threads, for hand and machine use in various materials; tap wrenches and die holders.

Page 62

Chisels, punches, taper punches, pin punches

★★★★★

VPS GS tested, CrV steel, specially hardened, for chiselling and breaking jobs, for electrical, assembly and demolition work.

Page 65 - 67

Hammers, to DIN

★★★★★

VPA GS tested, with wooden shafts, fibreglass or solid steel, magnetic nail holders, specially hardened working surfaces, serrated anti-slip striking faces, non-slip 2-component grips for optimal power transfer.

Page 70

Paving hammer

★★★★★

Lump hammer head, ash handle, with rounded rubber cap (replaceable), for laying stone/ concrete slabs and paving slabs.

Page 73

Waterproof case

This waterproof case can be used for all kinds of business or leisure travel. Protect your belongings against water and humidity. An excellent travel companion. Also suitable for photographic equipment. The cases are made from high-impact plastic, with 2-point locking, and are extremely durable. The cases use a sealing ring seated in an expansion joint to form a total seal. There is also an expansion valve to guard against damage through extremes of temperature or pressure. The case has a textured foam rubber insert which adapts to a wide variety of uses.

Hacksaws

Tile saws

Planes

Saws / Planes

The advantages of saws

- from handsaws to hacksaws: the right saw for every job
- mitre saws with universal saw blade for wood-, plastic- and metalworking
- mitre boxes for accurate cutting of skirting boards, mouldings and picture frames
- for the cleanest finish: kwb planes in a variety of patterns

Range overview saws / planes

WOODPECKER handsaws

★★★★★

2-component grip for fatigue-free working, especially quick and easy sawing in hard- and softwood on the push stroke, for quick, clean cuts in boards, battens, studwork, fine- and coarse fibreboard, PVC

Page 82

Bow saws

★★★★★

With blade, cross-ground teeth, hardpoint tips, peg teeth, with quick tension lever with knuckle guard, high frequency welded tubular steel handle, oval, for rapid cutting of solid, green and wet wood.

Page 87

WOODPECKER carpenter's saws

★★★★★

Japan toothing, triple ground, hardpoint tips, cut on the pull stroke, extra sharp, especially thin and flexible saw blade, quick and clean cut, for precision cutting in all types of wood and plastic.

Page 84

PROFI-mitre saws

★★★★★

With universal saw blade, fine teeth, hardpoint teeth, for wood- plastic- and metalworking, sturdy and stable construction, with adjustable length stop to left or right, accurate angle setting 45° to 90° to the left or the right.

Page 88

Overview of pictograms for WOODPECKER saws

	Japan tothing, triple ground		Suitable for specially fine cuts		Hardpoint teeth		Green wood
	Push and pull cutting		Flexible blade for flush cutting		Protectflon® coating prevents binding		Particle board
	Push cutting		Well suited for mitre boxes		Blockboard		Plastic and plastic coated laminates
	Clustered teeth for green and damp wood		Push tothing		Construction timber/solid wood		

WOODPECKER compass saw

★★★★★

Hardpoint teeth, ergonomically designed 2-component grip for fatigue-free working, for cut-outs, edges and holes in all types of wood and lightweight panels.

Page 83

PROFI hacksaw

★★★★★

Ergonomically shaped grip, rubber lined, non-slip for fatigue-free working, with HSS saw blade for ferrous- and non-ferrous metals.

Page 91

Mitre boxes

★★★★★

Made from birch ply for exactly angled 90° and 45° cuts in wood and other materials, exact trimming of skirting boards, mouldings and picture frames.

Page 89 - 90

Planes

★★★★★

Made from beechwood or metal, hand protection, for planing both large and small, difficult to access areas.

Page 95 - 98

Garden saws

Bow saws, 535 mm, 610 mm, 760 mm

Quick tension lever and knuckle guard, for large cuts both on push- and pull stroke, hardpoint teeth.

For all garden sawing jobs, especially for damp wood

Art.-No. 302100 - 303000

Page 87

WOODPECKER-Pruning saw, 350 mm

For especially easy sawing, large cuts both on push- and pull stroke, hardpoint teeth, tubular plastic-coated handle. Ideal for use with a wooden handle extension.

For all pruning and garden jobs

Art.-No. 306935

Page 84

Fretsaws

Fretsaw frame, 285 mm

For flat and round fretsaw blades.

For thin veneer, softwood, plywood, hardboard

Art.-No. 316000

Page 87

Handsaws

WOODPECKER-Handsaws, 350 und 450 mm

2-component grip, pointed teeth for quick cutting on the push stroke.

For cutting boards, battens, studwork, fine and coarse fibreboard, PVC

Art.-No. 304335-304345

Page 82

WOODPECKER-handsaw with japan teeth, 400 mm

2-component grip, especially quick and easy cutting in hardwood and softwood on the push stroke.

Clean, quick cuts in boards, battens, studwork, fine and coarse fibreboard, PVC

Art.-No. 304109

Page 82

Mitre saws

WOODPECKER back or mitre saw, 350mm

Sturdy steel back for exact saw guidance, 2-component grip, fine pointed teeth for clean cuts on push- and pull stroke.

Specially for small pieces, mouldings and battens, ideal for mitre boxes

Art.-No. 304735

Page 83

PROFI mitre saw, 560mm cutting length

for cuts from 45° bis 90°

For quick, easy sawing of iron, copper and plastic pipes, battens

Art.-No. 307200

Page 88

Floorboard/veneer saw

WOODPECKER-floorboard saw, 320 mm

With toothed nose for easy plunge cutting, 2-component grip, clean cutting on the push stroke.

For thin veneer, MDF and hardboard

Art.-No. 304835

Page 83

Masonry saws

Lightweight block saw

17 of 34 teeth tungsten carbide tipped, with 700mm long extra thick, lacquered blade for low-vibration cutting on the push stroke.

For lightweight, aerated and hollow concrete blocks

Art.-No. 305873

Page 85

Compass saws

WOODPECKER compass saw, 300mm
With extra rigid saw blade and reinforced teeth, 2-component handle, universal teeth for medium cuts in dry wood on the push stroke.

For cutting out in boards and PVC

Art.-No. 304930

Page 83

Plasterboard saw/ padsaw
With universal teeth and wooden handle, 170mm, extra strong pointed teeth, for plunge cuts and cut-outs on the push stroke.

For plasterboard work and finishing

Art.-No. 307500

Page 86

Hacksaws for metal

Profi-hacksaw with bi-metal saw blade
Length 300mm, ergonomically shaped, rubber lined handle

quick sawing in all metals

Art.-No. 199600

Page 92

Hacksaw to DIN 6473
with bi-metal saw blade, length 300mm

quick sawing in all metals

Art.-No. 199700

Page 92

Universal saw handle
Can be used with hacksaw blades or reciprocating saw blades, including different lengths of hacksaw blades.

Rapid sawing in metal, dry and damp wood

Art.-No. 315800

Page 92

Pull saws / special saws

WOODPECKER carpenter's saw, 300mm or 270mm
especially thin and flexible blade for flush cutting, 2-component- or bamboo handle, easy sawing on the pull stroke in dry wood.

For cabinet work, dry wood, veneers and particle boards

Art.-No. 304514-304515

Page 84 - 85

WOODPECKER pull saw, 240mm
Teeth both sides, coarse and fine, especially thin and flexible blade, for flush-cutting, bamboo handle, easy sawing on the pull stroke in dry wood.

For cabinet work, dry wood, veneers and particle boards

Art.-No. 304615

Page 85

Hacksaws for sheet metal

Junior hacksaw with sturdy wooden handle
Length 150mm, spare blades available for metal or wood

For quick, easy sawing of iron, copper or aluminium pipes

Art.-No. 315200

Page 94

Junior hacksaw with sturdy plastic handle
Length 150mm, spare blades available for metal or wood

For quick, easy sawing of iron, copper or aluminium pipes

Art.-No. 315615

Page 94

Junior hacksaw with lacquered wooden handle
Length 150mm, spare blades available for metal or wood

For quick, easy sawing of iron, copper or aluminium pipes

Art.-No. 315500

Page 94

...always the right tool!

WOODPECKER handsaw, low friction coating

Hardpoint teeth, anti-friction coating, ergonomically shaped 2-component grip for fatigue-free working, for clean cuts in all types of wood, no binding in the cut even on damp and glued wood

Art.-No.	Length	inch/°			Barcode
304245	450 mm	11"		1	4 009313 042451

WOODPECKER handsaw

Hardpoint teeth, ergonomically shaped 2-component grip for fatigue-free working, for easy, clean and precise cuts in all types of wood

Art.-No.	Length	inch/°			Barcode
304335	350 mm	12"		1	4 009313 043359
304345	450 mm	7"		1	4 009313 043458

WOODPECKER handsaw, Japan tooth

Japan teeth, patented 55° thrust toothing, fine, triple ground, ergonomically shaped 2-component grip for fatigue-free working, for clean and precise cuts in all types of wood

Art.-No.	Length	inch/°			Barcode
304109	400 mm	9"		1	4 009313 041096

WOODPECKER back saw

Extra fine teeth, hardened points, ergonomically designed 2-component grip for fatigue-free working, back 1.5mm thick, for easy, clean and accurate mitre cuts in all types of wood

Art.-No.	Length	inch/F			Barcode
304735	350 mm	12"		1	4 009313 047357

WOODPECKER veneer saw

Extra fine teeth, hardened points, suitable for fine cuts in veneers, mouldings, plywood and plastics as well as for mitre cuts, toothed nose for plunge cuts in veneer, thin plywood etc., ergonomically designed 2-component grip for fatigue-free working, easy, clean and accurate cuts in all types of wood, especially for parquet, laminates and veneer

Art.-No.	Length	inch/F			Barcode
304832	320 mm	12"		1	4 009313 048323

WOODPECKER compass saw

Hardpoint teeth, ergonomically shaped 2-component grip for fatigue-free working, for trimming, rounding and holes in all types of wood and laminates

Art.-No.	Length	inch/F			Barcode
304930	300 mm	8"		1	4 009313 049306

WOODPECKER pruning saw

Hardpoint teeth, clustered teeth, with tubular plastic handle, can be extended using wooden handle, for damp and dry green wood

Art.-No.	Length			Barcode
306935	350 mm		1	4 009313 069359

WOODPECKER carpenter's saw

Japan teeth, triple ground, hardpoint teeth, cuts on the pull stroke, extra sharp, exceptionally thin and flexible blade, quick and precise cut, for precision cutting in all types of wood and plastic

Art.-No.	Length			Barcode
304514	300 mm	14"	1	4 009313 045148

WOODPECKER pull saw

Japan teeth, triple ground, hardpoint teeth, cuts on the pull stroke, extra sharp, quick and precise cut, for precision cutting in all types of wood and plastic

Art.-No.	Length			Barcode
304517	270 mm	15"	1	4 009313 045179

WOODPECKER handsaws

WOODPECKER carpenter's saw

Japan teeth, triple ground, fine toothing, hardpoint teeth, cuts on the pull stroke, extra-thin blade, extra sharp, quick and precise cut, bamboo handle, for precision cutting in all types of wood and plastic

Art.-No.	Length	inch/F			Barcode
304515	270 mm	15"		1	4 009313 045155

WOODPECKER carpenter's saw

Japan teeth, triple ground, fine toothing, hardpoint teeth, cuts on the pull stroke, toothed both sides coarse and fine, extra-thin blade, extra sharp, quick and precise cut, bamboo handle, for precision cutting in all types of wood and plastic

Art.-No.	Length	inch/F			Barcode
304615	240 mm	9", 15"		1	4 009313 046152

Block saw

Alternate teeth tungsten carbide tipped, lacquered wooden handle, anti-friction coating, for cutting aerated concrete blocks, lightweight blocks and soft bricks

Art.-No.	Length			Barcode
305873	700 mm		1	4 009313 058735

Gent saw, straight

Straight, lacquered wooden handle, for accurate fine mitre cuts in all types of wood, particularly for strips and mouldings, cranked for flush cuts

Art.-No.	Length	inch/°			Barcode
314425	250 mm	13°		2	4 009313 144254

Gent saw, cranked

Cranked, lacquered wooden handle, for accurate fine mitre cuts in all types of wood, particularly for strips and mouldings, cranked for flush cuts

Art.-No.	Length	inch/°			Barcode
314525	250 mm	13°		2	4 009313 145251

Gent saw, cranked, adjustable grip

Cranked, adjustable, lacquered wooden handle, for accurate fine mitre cuts in all types of wood, particularly for strips and mouldings, adjustable handle for optimal access to flush cuts in tight situations

Art.-No.	Length	inch/°			Barcode
314625	250 mm	13°		2	4 009313 146258

Padsaw

Plasterboard saw with lacquered wooden handle, tapered blade, medium hardpoint teeth, for cut-outs, adjustments and holes in lightweight boards

Art.-No.	Length			Barcode
307500	170 mm		2	4 009313 075008

Handsaws

Bow saws

With blade, cross-ground teeth, hardpoint teeth, skip teeth, with quick tension lever and hand guard, high-frequency welded tubular steel oval frame, for quick cutting of large, green and wet wood

Art.-No.	Length			Barcode
302100	535 mm		2	
302400	610 mm		2	
303000	760 mm		2	

Bow saw blades

Hardpoint teeth, peg toothing, for rapid cutting of solid, green and wet wood

Art.-No.	Length			Barcode
312100	530 mm		3	
312400	610 mm		3	
313000	760 mm		3	
313600	915 mm		3	

Fretsaw frame

Tubular steel frame, lacquered wooden handle, suitable for straight and round un-pinned fretsaw blades 130mm long, for cutting solid wood, plywood, softwood, laminates, with the relevant sawblade you can make both straight and curved cuts

Art.-No.	Throat depth			Barcode
316000	285 mm		2	

Fretsaw starter set, 7 pc.

Ideal set for all fretsaw jobs, for sawing solid wood, plywood, softwood, laminates, with the correct saw blade you can make curved and straight cuts

Art.-No.	Contents			Barcode
316110	Fretsaw frame 320 mm Plastic fretsaw table Clamp Ahle Awl with plastic handle Fretsaw blade key Fretsaw blades Fretsaw pattern		2	

Fretsaw table with clamp

Solid beechwood, with zinc plated clamp with which to fix it securely to the bench, no slipping in use, quick to install

Knives

The advantages of knives

- **Autoload function:**
easy blade handling and automatic reloading from the blade magazine
- **Autolock function:**
automatic locking for safe working
- ergonomically shaped for optimal power transfer and fatigue-free working

Range overview knives

Autolock knives with autoload function ★★★★★

With blade breaker, with autoload function for automatic reloading from the blade magazine, with autolock function for automatic locking, 2-component plastic housing with non-slip grip surfaces.

Page 102

PROFI knives with autolock function ★★★★★

With snap-off blade, with autolock function for automatic locking, nicely weighted, heavy duty die-cast zinc housing.

Page 102

PROFI trimming knife ★★★★★

Heavy duty construction with die-cast zinc housing, ergonomically shaped, for optimal power transfer and fatigue-free working.

Page 103 - 105

kwb tip

Snap off blades safely

With the removeable cap from the end of the knife, blades can be safely snapped off.

Files

Multi-fluted cutting tools made from high quality hardened alloyed tool steel, for removing material from workpieces. Files are mainly used in mechanical engineering, toolmaking, casting and modelmaking for sharpening and deburring. They come in a variety of profiles and cutting grades for a range of uses.

Rasps

Rasps made from high quality hardened alloyed tool steel are mostly used for rough shaping of wood, but leather, plastic, gypsum, marble and soft metals can also be worked with them.

Cutting grades and profiles

Cut:

The coarseness of a file or rasp is described by the cut number. The coarser a file or rasp, the more material will be removed.

No.1 cut = coarse/bastard, for rough preparation or grinding

No.2 cut = medium/second cut, for medium material removal

No.3 cut = fine/smooth, for finishing or minimal material removal

Profile:

		
Flat file Art.-No. 480310	Half round file Art.-No. 480320	Square file Art.-No. 480330
Flat file / flat rasp Art.-No. 480510	Half round rasp Art.-No. 480420

Packer Star

Load securing with kwb

Load securing

Every load, whether in cars or large commercial vehicles must be secured.

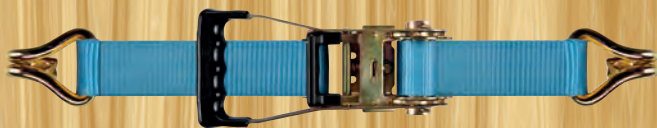

The Highway Code (StVO) § 22 requires: Every load must be secured so that in the event of avoidance manoeuvres or heavy braking, it cannot slip, overbalance, move back or forwards, or fall. The responsibility for securing the load always rests with the driver, the vehicle owner and the shipper. Violations of these regulations will result in a variety of punishments.

So that your load is safe and secure, kwb offers a wide range of durable cargo lashing products, mainly with polyester (PES) webbing.

For easy selection, kwb has divided the cargo lashing products range into four categories.

-  Green: Furniture moving straps, up to 150kg
-  Orange: smaller loads
from 100 daN (kg) to 245 daN (kg)
-  Yellow: medium to heavy load
from 420 daN (kg) to 1000 daN (kg)
-  Blue: Heavy to very heavy loads
from 2000 daN (kg) to 4000 daN (kg)

Range overview load securing products

Tie-downs with ratchet

★★★★★

Polyester webbing (PES), durable, plastic coated ratchet with easy unlocking, for lashing and securing heavy loads from 2000 to 4000 kg on vans, trucks and trailers.

Page 130

Tie-downs with ratchet

★★★★★

Polyester webbing (PES), durable, plastic coated ratchet with easy unlocking, for lashing and securing loads from 420 to 1000 kg on light vans, cars and trailers.

Page 131 - 132

Tie-downs with friction cleat

★★★

Polypropylene (PP), durable, for lashing and securing loads from 100 to 245 kg in cars, vans and roof boxes.

Page 133

Luggage straps

★★★

Luggage straps can be used for holding and securing lighter objects on bikes, in car boots and on roof racks.

Page 136

kwb-info: correct usage

Safer handling with tie-downs

Lashing down (passive)

With lashing down, the load is pressed down on to the loading surface with a minimum of two straps. Care should be taken to ensure that the transport cartons are not crushed.

Diagonal lashing (positive)

With diagonal lashing a minimum of 4 straps are used all round the profile of the load, secured directly to the vehicle via lashing hooks or eyelets. In this case the tie-downs take all the forces of acceleration or braking acting on the load.

Inclined lashing (positive)

With inclined lashing a minimum of 8 straps are used acting at 90 degrees to all edges of the load, secured directly to the vehicle via lashing hooks or eyelets. In this case the tie-downs take all the forces of acceleration or braking acting on the load.

When lashing down, the angle of the straps to the load is important. The steeper the angle at which the load is lashed, the more secure the load. 45° is the critical point below which the load becomes progressively more likely to slip.

Single and two-part tie-downs

Single tie-down

A single part tie-down is exclusively used for load strapping, and does not come with any hooks.

Two-part tie down

A two-art tie-down always has two fixing hooks. Most have one strap with a hook, and another strap with a hook and a ratchet.

When a two-part tie-down is used, the loading surface must always have lashing hooks or eyelets to which the hooks can be fixed.

Different types of tie-downs (chains or made from artificial fibres) must not be used together on the same load.

Fixing points

Coated S-hooks

Claw hooks

S-hooks

Care of tie-downs

Storage

Tie-downs must always be kept dry, well aired, and protected from weather or chemical attack.

Properties of tie-downs

- Corrosion and rot-resistant
- Very little moisture absorption (protected by impregnation)
- Abrasion resistant
- made from polyester fibres or polypropylene fibres

Regular inspection of tie-downs

Tie-downs must be regularly inspected for damage such as tears, cuts, notches and holes. There is no expiry date on tie-downs. With correct handling and care, tie-downs can have an extremely long service life.

A tie-down must be taken out of use if:

- More than 10% of the webbing is destroyed
- If the seam stitching is damaged
- If the webbing has been damaged by high temperatures or exposure to chemicals
- If the rating label is missing
- If the ratchet or fixing points are damaged
- If the fixing hook has spread by more than 5%

Situations to be avoided at all costs

Webbing must not be knotted

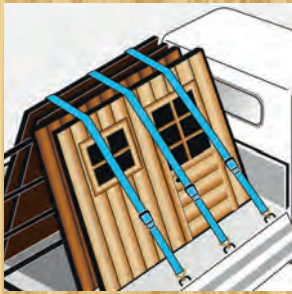

Webbing must not be allowed to lie against sharp edges

Tie-downs must not be used for lifting

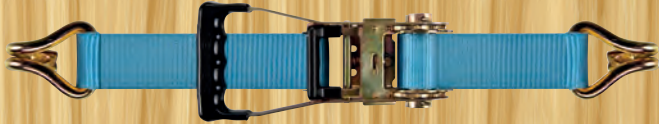

Caution: on long journeys it is advisable to check the load and the tie-downs from time to time, and tighten the tie-downs if necessary.

Laser measuring tools

Measuring tools

The advantages of measuring tools

- high quality measuring tools for every measuring job
- highly accurate measurement in every situation

Range overview measuring tools

PRECISA measuring tapes

★★★★★

Concave steel tape, hardened, calibrated, with special hook for inside and outside measurement, ABS plastic housing, breakage resistant, automatic tape brake, hook with strongly magnetic tip

Page 140

Precision calipers

★★★★★

DIN 862, stainless, matt chrome plated, with depth probe, cross-over jaws for inside measurement, available with digital or analogue display

Page 142

Square

★★★★★

with and without stop, some with continuously adjustable angle measuring arm, lockable, dual scale, anodised, graduated on both sides and both edges

Page 143 - 145

Folding rules

★★★★★

Stocks treated with scratch-, weather- and abrasion resistant lacquer, red numerals, integral steel springs, solid rivets, with cm- and mm graduation on both side and both edges

Page 146

kwb tip

Precise location and hazard-free drilling

Before drilling you can be sure that there are no hidden live cables, pipes or battens under the surface to be drilled. The kwb SAFETY-FIXX detects any buried live cables under the surface to be drilled with one sweep of the hand.

SAFETY-FIXX
Voltage- metal- and stud detector
Art.-No. 011620 (on page 153 of the catalogue)

Spirit levels

★★★★★

Sturdy aluminium profile with shock-absorbing end caps, high accuracy vials, ground faces allow levels to lie perfectly flat, for horizontal, vertical and overhead measurement, ideal for drywall work, industrial and DIY use.

Page 148 - 150

Line level

★★★★★

Made from ABS plastic with Plexiglas tube bubble and a flat aluminium base. This is an ideal aid for building, flooring or paving jobs

Page 149

Laser level

★★★★★

TuV GS tested, laser class 2, 650nm wavelength, batteries included, point and line lasers for a wide variety of uses in construction and renovation

Page 150

Thermo-Fixx remote temperature measure ★★★★★

Non-contact remote temperature measurement with infrared technology, ideal for detecting thermal bridges during renovation work

Page 152

PRECISA steel tape measure

Steel tape measure, concave tape, hardened, with special hook for inside and outside measurement, hook with strongly magnetic tip, automatic blade retraction, ABS plastic housing, breakage resistant, automatic tape brake, with EG type approval, accuracy class II, good for measuring internal dimensions for example drawers

065120	120 cm		1	
065180	180 cm		1	

Magnetic spirit level

With two strong magnets on the base, hands-free working on vertical and overhead jobs, ideal for drywall work, for professional and DIY use, robust aluminium housing with one each precision vertical and horizontal bubbles, ultra-violet resistant, accuracy 0.5 mm/m, with shockproof end caps

Art.-No.	Length			Barcode
064760	60 cm		2	

Digital spirit level

with digital measuring device for accurately measuring gradients in degrees and percent, accurate to 0.3°. Directional arrows and audible signals at 0°, 45° and 90° for easy alignment, hold function for storing and transferring the measurement results, automatic rotation of the measured values on the display when working overhead, obliquely positioned easy-to-read display, display illumination for working in poor light, easy calibration for sustained accurate measuring, the level also has vertical and horizontal bubbles for manual working, 9 volt battery pack supplied

Art.-No.	Length			Barcode
064660	60 cm		1	

Profi spirit level with remote viewing optics

VPA quality tested, accuracy 0.5 mm/m, ultra violet resistant, mit 3 breakage- and impact resistant vials, 1 horizontal, 1 vertical and 1 vertical with prism for easy reading in difficult-to-access areas, precision ground working surface both sides, both ends with protective end caps, comfortable soft-grip handle, ideally suited for vertical and overhead measurement

Art.-No.	Length			Barcode
068080	80 cm		1	

Spirit levels

Mini spirit level

With vertical and horizontal bubbles

Art.-No.	Length			Barcode
065010	100 mm		2	

Aluminium mini spirit level

With horizontal bubble, precision level, accuracy 0.5 mm/m, ultra-violet resistant, with shockproof end caps, breakage and impact resistant level, in counter/wall display

Art.-No.	Length			Barcode
065005	100 mm		Z 10	

Line level

Handy small line level made from ABS plastic with Plexiglas bubble and flat aluminium underside, for building, floor tile laying or plastering, can be affixed to mason's or brick lines

Art.-No.	Length			Barcode
065710	75 mm		6	

Post level

With vertical and horizontal bubbles, for aligning bollards, fence posts etc.

Art.-No.	Length			Barcode
062500	58 mm		5	

Water level

20 m transparent clearview hose, flexible, with transparent filling funnel, 2 white stoppers, for transferring level measurements over long distances or in different rooms

Art.-No.	Length			Barcode
064720	20 m		1	

Torpedo laser level

TÜV GS tested, with vertical and horizontal bubbles, laser class 2, 650 nm wavelength, batteries included, magnetic base.

Art.-No.	Length			Barcode
064400	270 mm		1	4 009310 644009

Mini laser with mirror optics

TÜV GS tested, with horizontal bubble, laser class 2, 650 nm wavelength, with built-in height adjustment, with prism optics, batteries included.

Art.-No.	Length			Barcode
064500	220 mm		1	4 009310 645006

Tripod for laser levels

with adaptor for all market-leading cameras and laser measuring tools, adjustable from 550 to 1540 mm

Art.-No.	for			Barcode
064340	066400 / 062910		1	4 009310 643408

Laser measuring tools

PROFI rotating laser

TÜV GS tested, Laser class 2, 635 nm wavelength, vial illumination makes it easy to work in poor light, with scan function for better detection of the laser line, vertical reference beam, adjustable for horizontal and vertical operation.

Art.-No.	Contents			Barcode
066400	1 rotating laser with 90° Prism and vertical reference beam 1 pair of laser-enhancing goggles 1 laser target Batteries included		1	4 009310 664007

Cross-line laser

for easy and quick alignment of horizontal, vertical or cross lines on walls. The laser beams can be switched separately. Ideal for tiling or vertical line for wallpaper hanging. Simple and intuitive operation, automatic levelling up to +/- 4° device inclination or fixed mode for lateral lines. Warning lamp when 4° inclination is exceeded and deactivation of laser lines to avoid incorrect measurements, measuring range 8 metres, horizontal measuring angle 170°, vertical measuring angle 140°, with integrated 1/4" thread - fits all established tripods. Laser category 2, 635 nm wavelength, measuring accuracy 0.5 mm/m

Art.-No.	Contents			Barcode
062910	1 self-levelling cross laser 3 line modes (horizontal, vertical, crossed) 1 mini tripod, 9 cm 1 nylon pouch Batteries included		1	4 009310 629105

...always the right tool!

Damp meter for building materials and wood

★★★★★

TÜV GS tested, universally useful device for measuring dampness in wood and building materials, 4 x 1.5V AAA batteries included, large, easy-to-read LCD display, for renovation work, when buying firewood, assessing water damage, with LED to illuminate dark corners

Art.-No.	Contents			Barcode
012100	Damp meter for building materials and wood, 4 x 1.5V AAA batteries included		1	4 009310 121005

THERMO-FIXX temperature measuring device

★★★★★

infrared temperature measuring device, contact-free measurement of surface temperatures with infrared technology, ideal to sense thermal bridges for refurbishment of old buildings, water temperature, heating lines, engine heat, laser aim point for precise focusing on measuring points, measuring range from -20°C to + 320°C, measuring lens 12 : 1, switchable temperature display from Celsius to Fahrenheit, automatic deactivation after 10 seconds, laser category 2, 635 nm wavelength, measuring accuracy 0°C to 320°C = +/- 1.5°C 0.5 mm/m, -50°C to 0°C = +/- 3.0°C, with 9 V DC monobloc battery

Art.-No.	Contents			Barcode
012310	THERMO-FIXX 9 V DC battery pack included		1	4 009310 123108

Laser measuring tools

SAFETY-FIXX voltage, metal and stud detector

Precise location and hazard-free drilling with the 3 in 1 SAFETY-FIXX interior location device. Before drilling you can be sure that there are no hidden live cables, pipes or battens under the surface to be drilled.

The device simply calibrates itself to the work surface, then with one pass detects any live cables, metal up to 38 mm deep and drywall studs up to 18 mm deep. When the device detects something the diodes illuminate and there is an acoustic signal.

Using the reference points on the housing you can accurately mark the first edge of buried objects on the first pass. By then passing the device back in the other direction you can mark the other extremity of the buried object, so exactly between the marks is the centre of the object. Measurement accuracy +/- 3 mm, 9 Volt alkaline battery included, dimensions 15.5 x 6.5 cm.

Art.-No.	Contents			Barcode
011620	SAFETY FIXX, 9 Volt alkaline battery included		1	4 009310 116209

Markers

Building and tiling tools

kwb has everything for the professional

- spatulas of many types eg painter's scrapers, spreaders, taping knives and silicon finishers
- extensive range of tiling products
- trowels for many different uses e.g. spreading mortar for building and plastering
- floats for a smooth finish and uniform surface

Range overview building and tiling tools

Scraper

★★★★★

Removes wallpaper in corners and from edges, wooden and plastic handles, space-saving. Ideal for working on lime plaster, concrete and wood, for neat removal of fillers etc.

Page 163

Tile washboy sets

★★★★★

Washboy sets for tiles, great for washing down tiles, washing after jointing, plastering and building jobs, including black bucket with mangle

Page 169

Tile spacers

★★★★★

Plastic, white, while laying tiles place the crosses in the joints between the tiles, so that the joint width between the tiles is uniform, and so that the tiles can't move after being laid

Trowels

★★★★★

Stainless steel and steel types, for all bricklaying and plastering work, universal use, ergonomically shaped wooden or 2-component plastic handles allow comfortable working, suitable for application of plaster, screed and render

Page 177 - 183

kwb tip

NEW from kwb.
Tile hammer with tungsten carbide tip

With the new kwb tile hammer tiles can be simply snapped to size along pre-scored lines. Ideal for knocking out damaged tiles.

Tile hammer with tungsten carbide tip
Art.-No. 177510 (on page 171 of catalogue)

Smoothing trowels

★★★★★

Stainless steel and steel types, straight edge or toothed, perfectly suited for applying and smoothing filler and mortar to flat surfaces, also for spreading adhesives during building work or tiling

Page 184 - 186

Floats

★★★★★

Plastic, with various facings, for achieving an especially smooth plaster surface

Page 186 - 191

Pipe cutters

★★★★★

For copper-, brass-, light alloy-, hard plastic and thin-walled steel pipes, with deburring tool

Page 196

Marking crayons and crayon holder

★★★★★

For marking dry and wet wood, paper, cardboard, metal, stone, asphalt, tiles, plastics, weatherproof, high-visibility marking

Page 199

Surface rasp plane

Surface rasp plane, die-cast aluminium body, with SK 2 steel rasp blade for wooden boards, fibreboard and particle board, plaster, rubber and rigid foam materials

Berlin pattern brick trowel

Hardened steel, with swan neck handle, flexible, polished face, conical ground, lacquered wooden handle, for applying mortar, for tile adhesive, screed, concrete, render, gypsum, plaster base

Art.-No.	Trowel length x width			Barcode
924122	220 x 200 mm		1	4 009319 241223

Arnhem pattern brick trowel, for right-handers

Hardened steel, lacquered wooden handle, for applying mortar, building and plastering

Art.-No.	Trowel length x width			Barcode
923618	180 x 145 mm		1	

Tuck pointers

Hardened steel, long, lacquered wooden handle, for brickwork and blockwork jointing

Art.-No.	Trowel length x width			Barcode
925016	180 x 8 mm		1	
925020	180 x 10 mm		1	
925022	180 x 12 mm		1	

Hod

Plastic, with retaining lip, centre handle, for convenient handling in jointing and drywall work

Art.-No.	Trowel length x width			Barcode
925732	320 x 180 mm		1	

Plasterer's hawk

Plastic, for carrying mortar for all jointing operations

Art.-No.	Trowel length x width			Barcode
919524	250 x 250 mm		1	

Small tool

Hardened steel, flexible, leaf and square shape, plastic-coated centre grip, for small patching jobs in plaster or ornamental mouldings, for intricate and decorative shapes

Art.-No.	Scraper width			Barcode
925910	10 mm		1	4 009319 259105
925916	16 mm		1	4 009319 259167
925920	20 mm		1	4 009319 259204

Pointing trowel, round end

Hardened steel, lacquered wooden handle, Dutch pattern, round point, for laying and smoothing of mortar

Art.-No.	Trowel length x width			Barcode
923014	140 x 103 mm		1	4 009319 230142

Pointing trowel, pointed

Hardened steel, lacquered wooden handle, Dutch pattern, sharp point, for laying and smoothing of mortar

Art.-No.	Trowel length x width			Barcode
923514	140 x 95 mm		1	4 009319 235147

Pointing trowel, Hamburg pattern

Stainless steel, 2-component handle, for masonry and brickwork in less accessible areas, for finishing on masonry or plaster, or on ornamental plaster mouldings

Art.-No.	Trowel length x width			Barcode
925564	140 x 80 mm		1	4 009319 255640

Pointing trowel, Hamburg pattern

Stainless steel, swan-neck lacquered wooden handle, for masonry and brickwork in difficult to access areas, on plaster surfaces in corners or ornamental plaster mouldings

Art.-No.	Trowel length x width			Barcode
925514	140 x 80 mm		1	4 009319 255145

Tongue gauging trowel

Stainless steel, 2-component handle, for all finishing and plastering jobs during plumbing and electrical work, eg covering concealed cable- and pipework with plaster or filler, or in less accessible areas, finishing off after installation of conduit, switches or sockets

Art.-No.	Trowel length x width			Barcode
934366	160 x 45 mm		1	4 009319 343668

Tongue gauging trowel

Stainless steel, lacquered wooden handle, for all finishing and plastering jobs during plumbing and electrical work, eg covering concealed cable- and pipework with plaster or filler, or in less accessible areas, finishing off after installation of conduit, switches or sockets

Art.-No.	Trowel length x width			Barcode
934316	160 x 45 mm		1	4 009319 343163

Gauging trowel

Stainless steel, 2-component handle, for applying mortar or plaster in narrow or difficult to access areas, and for small patching jobs

Art.-No.	Trowel length x width			Barcode
925864	140 x 52 mm		1	4 009319 258641

Gauging trowel

Stainless steel, lacquered wooden handle, for applying mortar or plaster in narrow or difficult to access areas, and for small patching jobs

Art.-No.	Trowel length x width			Barcode
925814	140 x 52 mm		1	4 009319 258146

Plastering spatula trowel

Stainless steel, 2-component handle, for fine finishing work on plaster, mortar and gypsum

Art.-No.	Trowel length x width			Barcode
925466	100 x 60 mm		1	4 009319 254667
925468	110 x 80 mm		1	4 009319 254681
925470	160 x 100 mm		1	4 009319 254704

Plastering spatula trowel

Stainless steel, lacquered wooden handle, for intricate finishing jobs on all types of mortar and plaster

Art.-No.	Trowel length x width			Barcode
925406	100 x 60 mm		1	4 009319 254063
925408	110 x 80 mm		1	4 009319 254087
925416	160 x 100 mm		1	4 009319 254162

Internal corner trowel

Stainless steel, lacquered wooden handle, for plastering wall and ceiling corners

Art.-No.	Trowel length x width			Barcode
919608	80 x 60 mm		1	4 009319 196080

External corner trowel

Stainless steel, lacquered wooden handle, for plastering external corners of walls, beams or columns; or stair edges

Art.-No.	Trowel length x width			Barcode
934208	80 x 60 mm		1	4 009319 34208 1

Adhesive dispensing trowel

Zinc plated sheet steel, plastic handle, for working on masonry, aerated concrete, breezeblocks and sandstone, for dispensing the correct quantity of adhesive for the masonry being worked

Art.-No.	Width			Barcode
033210	100 mm		2	4 009310 33210 4
033211	115 mm		2	4 009310 33211 1
033215	150 mm		2	4 009310 33215 9
033217	175 mm		2	4 009310 33217 3
033224	240 mm		2	4 009310 33224 1

Tiling trowel, Belgian pattern

Hardened steel, heart-shaped, swan neck lacquered wooden handle, for applying mortar and tile adhesive

Art.-No.	Trowel length x width			Barcode
919716	160 x 120 mm		1	4 009319 19716 2

Smoothing trowel

Stainless steel, smooth, 2-component handle, for flattening and smoothing fillers, mortar and adhesives, for building work or tile-laying

Art.-No.	Trowel length x width			Barcode
924658	280 x 130 mm		1	4 009319 246587

Smoothing trowel

Stainless steel, smooth, lacquered wooden handle, for flattening and smoothing fillers, mortar and adhesives, for building work or tile-laying

Art.-No.	Trowel length x width			Barcode
924638	280 x 130 mm		1	4 009319 246389

Smoothing trowel

Hardened steel, smooth, lacquered wooden handle, for applying mortar and tile adhesive

Art.-No.	Trowel length x width			Barcode
923728	280 x 130 mm		1	4 009319 237288

Adhesive trowel, toothed 2 sides

Stainless steel, lacquered wooden handle, for applying and smoothing plaster or filler on walls or floors, filling hollows, joints and holes, or for similar jobs with tile adhesive

Art.-No.	Trowel length x width	Tooth spacing			Barcode
924428	280 x 130 mm	4 mm		1	4 009319 244286
924438	280 x 130 mm	6 mm		1	4 009319 244385
924448	280 x 130 mm	8 mm		1	4 009319 244484
924458	280 x 130 mm	10 mm		1	4 009319 244583
924468	280 x 130 mm	12 mm		1	4 009319 244682

Adhesive trowel, toothed both sides

Hardened steel, lacquered wooden handle, for uniform application of tile and carpet adhesive

Art.-No.	Trowel length x width	Tooth spacing			Barcode
923818	280 x 130 mm	4 mm		1	
923828	280 x 130 mm	6 mm		1	

Swiss smoothing trowel

Stainless steel, smooth, laquered woodenhandle, suitable for extensive application and smoothing fillers, mortar and adhesives, in particular for masonry works and plastering with different plaster

Art.-No.	Trowel length x width			Barcode
919450	500 x 130 mm		1	

Papillon smoothing trowel, serrated on 2 sides

Stainless steel, lacquered wooden handle, special Papillon toothing, with bevelled outside edge, creates a mortar, filler or adhesive bed with a height of 5 mm without air pockets, without scratching and getting jammed, especially for deep-bed laying of tiles or slabs outdoor

Art.-No.	Trowel length x width			Barcode
924488	280 x 130 mm		1	

Flooring trowel

Hardened steel, narrow shape, lacquered wooden handle, light alloy brace, blade manually finished, for spreading mortar, plaster and screed over large surfaces, especially floors

Art.-No.	Trowel length x width			Barcode
919850	500 x 115 mm		1	

Smoothing trowel, plastic

Plastic, for application of e.g. Grout, mortar, tile adhesive, sealant, plaster for smoothing out irregularities and hollows on walls and floors

Art.-No.	Trowel length x width			Barcode
924538	280 x 140 mm		1	4 009319 245382

Smoothing trowel, plastic, extra narrow

Plastic, extra narrow, for application of e.g. Grout, mortar, tile adhesive, sealant, plaster for smoothing out irregularities and hollows on walls and floors

Art.-No.	Trowel length x width			Barcode
924320	200 x 70 mm		1	4 009319 243203

Finishing float

Plastic, for finishing and patching of small areas of plaster, for areas not accessible using normal size trowels

Art.-No.	Dimensions			Barcode
925626	260 x 80 mm		1	4 009319 256265

Skimming spatulas

Plastic, for use with either hand on large surfaces for applying or smoothing plaster

Art.-No.	Dimensions				Barcode
922808	800 x 120 mm	20 mm		1	4 009319 228088
922812	1200 x 120 mm	20 mm		2	4 009319 228125

H-profile skimming spatulas

Aluminium, H-section, for smoothing plaster over difficult substrates such as concrete, filling irregularities to give a good final surface

Art.-No.	Length			Barcode
062112	120 cm		1	4 009310 621123
062115	150 cm		1	4 009310 621154
062120	200 cm		1	4 009310 621208

Feather edge

Aluminium, feather edge section with centre bevel, for smoothing plaster over difficult substrates such as concrete, filling irregularities to give a good final surface

Art.-No.	Length			Barcode
062312	120 cm		1	4 009310 623127
062315	150 cm		1	4 009310 623158

Float

Plastic, for smoothing and removal of freshly applied plaster or render, for good adhesion and even surfaces

Art.-No.	Dimensions			Barcode
924938	280 x 140 mm		1	4 009319 249380
924948	320 x 180 mm		1	4 009319 249489
924958	360 x 200 mm		2	4 009319 249588

Float, plywood

Plywood, for smoothing and levelling freshly applied plaster or screed, lime-resistant, for levelling and smoothing lime plaster and cement, gives uniform surfaces with low wear and high strength

Art.-No.	Dimensions			Barcode
924838	280 x 140 mm		1	4 009319 248383
924840	400 x 150 mm		1	4 009319 248406

Float with rubber sponge facing

Plastic, with 9mm sponge rubber facing, orange, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924728	280 x 140 mm		1	4 009319 247287

Float with rubber sponge facing

Plastic, with 18mm sponge rubber facing, orange, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924788	280 x 140 mm		1	4 009319 247881

Spare facing, foam rubber

For part no. 924728, 924788, orange, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924789	280 x 140 mm	20 mm	2	4 009319 247898

Float with sponge facing

Plastic, with 20mm sponge facing, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924748	280 x 140 mm		1	4 009319 247485

Building tools

Float with sponge facing

Plastic, with 40mm sponge facing, for making an extra-smooth plaster surface

Art.-No.	Dimensions				Barcode
924798	280 x 140 mm	40 mm		2	

Spare facing, sponge

For part no. 924747, 924798, white, for making an extra-smooth plaster surface

Art.-No.	Dimensions				Barcode
924799	280 x 140 mm	45 mm		2	

Float with absorbent sponge

Plastic, with 30mm absorbent sponge facing, for making an extra-smooth plaster surface, and for final cleaning after tile grouting

Art.-No.	Dimensions				Barcode
924738	280 x 140 mm			1	

Spare facing, absorbent sponge

For part no. 924738, for making an extra-smooth plaster surface and for final cleaning after tile grouting

Art.-No.	Dimensions				Barcode
924739	280 x 140 mm	30 mm		2	

Float with foam rubber facing

Plastic, with 8 mm foam rubber facing, green, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924758	280 x 140 mm		1	4 009319 247584

Float with foam rubber facing

Plastic, with 10mm foam rubber facing, black, for making an extra-smooth plaster surface, and for contouring of plaster surfaces

Art.-No.	Dimensions			Barcode
924768	280 x 140 mm		1	4 009319 247683

Float with felt facing

Plastic, with 10mm felt facing, black, for making an extra-smooth plaster surface

Art.-No.	Dimensions			Barcode
924778	280 x 140 mm		1	4 009319 247782

Spare facing, felt

For part no. 924778, black, for making an extra-smooth plaster surface

Art.-No.	Dimensions				Barcode
924779	280 x 140 mm	10 mm		2	4 009319 247799

Building tools

Blockwork sanding float

Plywood, with handle, 16 grit, for removing surface irregularities on lightweight building materials, for aerated concrete blocks, Styropor, Styrodur

Art.-No.	Dimensions			Barcode
924850	480 x 240 mm		1	4 009319 248505

Spare facing for blockwork sander

For part no. 924850, 16 grit, for levelling uneven surfaces on building blocks, for aerated concrete, Styropor/Styrodur insulation

Art.-No.	Dimensions			Barcode
924852	480 x 240 mm		1	4 009319 248529

Floor scraper without handle

Hardened steel plate, handle socket 35mm, for removal, deburring and cleaning of form-work residue from floor and ceilings, also for use in de-icing paths etc.

Art.-No.	Length			Barcode
180030	300 mm		1	4 009311 800305

Lattice plane with ergonomic grip

Sheet steel, plastic coated handle, all grid elements spot welded, lattice size 30 x 30mm, one side open one side closed, for removing excess render

Art.-No.	Dimensions			Barcode
180138	285 x 145 mm		1	4 009311 801388

Aluminium plane

Light alloy with 8 hardened steel blades, for many uses finishing or levelling plaster and render, and removing any excess material

Art.-No.	Dimensions			Barcode
180150	450 x 85 mm		1	4 009311 801500

Render scratching float

Wooden base with steel points, with hand strap, for universal roughing of interior and exterior plaster and render

Art.-No.	Dimensions			Barcode
180318	180 x 90 mm		2	4 009311 803184

Plasterer's pins

Hardened, for universal use on frameworks, plastering profiles, or for installing window and door frames

Art.-No.	Shape			Barcode
179500	square		2	4 009311 795007
179520	round		2	4 009311 795205

Mason's line, green

Nylon mason's line, braided 1.2 mm Ø, for horizontal and vertical alignment of bricks and blocks

Art.-No.	Ø	Colour	Length			Barcode
925105	1,2 mm	Green	50 m		3	4 009319 251055
925110	1,2 mm	Green	100 m		3	4 009319 251109

Building tools

Mason's line, red

Nylon mason's line, braided 1.2 mm Ø, for horizontal and vertical alignment of bricks and blocks

Art.-No.	Ø	Colour	Length			Barcode
925125	1,2 mm	red	50 m		3	
925120	1,2 mm	red	100 m		3	

Mason's line, white

Nylon mason's line, braided 1.7 mm Ø, extra strong, for horizontal and vertical alignment of bricks and blocks

Art.-No.	Ø	Colour	Length			Barcode
922105	1,7 mm	white	50 m		2	
922110	1,7 mm	white	100 m		2	
922125	2 mm	white	50 m		2	
922130	2 mm	white	100 m		2	

Hemp string

for wrapping, tying and binding

Art.-No.	Cord length			Barcode
179305	50 m		2	

PROFI chalk line kit

Die-cast zinc housing, with centre point, with winding handle, 30 metre line, felt buffers, supplied without chalk, for coloured marking during brick- and floor laying, partitioning etc., also for use as plumb line and gradient measure

Art.-No.	Cord length			Barcode
925300	30 m		1	

Chalk for chalk lines

For use with chalk line, part no. 925300

Art.-No.	Colour	Weight			Barcode
925310	red	100 g		2	
925320	Blue	100 g		2	

Chalk line set

Die-cast zinc housing, with winding handle, 30 metre line, with hook tip, with red and blue marking powder, for coloured marking during brick- and floor laying, partitioning etc., also for use as plumb line, with line level

Art.-No.	Contents			Barcode
925200	1 Chalk line, 30 m Line 1 Line level 1 Bag of red chalk 1 Bag of blue chalk		1	

PROFI nail lifting bar

Flat, extremely heavy duty, oval shaft, one end with broad blade, the other with bent claw, with polished working faces, for opening cases, lifting floor boards, invaluable for DIY, kitchen fitting, exhibition stand building, carpentry, flooring and joinery

Art.-No.	Length			Barcode
454360	600 mm		1	
454380	900 mm		1	

Nail lifting bar

With hand grip, ideal for removing nails, raising floorboards etc.

Art.-No.	Length			Barcode
454100	300 mm		3	

Hand tools / Pipe tools

Board lifter

heavy duty, plastic handle, for transporting, laying and replacing paving slabs, tiles and other stonework, grip range from 300 to 500 mm, easily adjustable, lifting capacity up to 30 kg

Art.-No.	for arbors			Barcode
179600	300 - 500 mm		1	4 009311 796004

Plasterboard lifter

Metal construction, plastic coated, non-slip, for carrying plasterboard sheets

Art.-No.	for			Barcode
179711	Plasterboard		2	4 009311 797117

Suction lifter, multi-purpose

For glass and other smooth surfaces, suction lifter with aluminium housing for transporting heavy, awkward objects, for example glass, doors, windows and sheets, lifting capacity max. 25 kg

Art.-No.	max. Kg			Barcode
179800	25		1	4 009311 798008

Sheet metal punch

Steel construction, for sheet metal including stainless steel, eg stainless steel sinks, for problem-free hole cutting for taps and mixer taps

Art.-No.	∅			Barcode
525600	32 mm		1	4 009315 256009
525700	35 mm		1	4 009315 257006
525800	40 mm		1	4 009315 258003

Pipe cutter

With 1 cutting wheel and 2 guide rollers, for copper, brass, light alloy, hard plastic and thin-walled steel tubes, with scraper for deburring the inside of the cut tube

Art.-No.	Pipe diameter			Barcode
950416	3 - 16 mm		1	4 009319 504168

Pipe cutter with scraper

With 1 cutting wheel and 2 guide rollers, for copper, brass, light alloy, hard plastic and thin-walled steel tubes, with scraper in the handle for deburring the inside of the cut tube

Art.-No.	Pipe diameter			Barcode
950430	3 - 35 with scraper		2	4 009319 504304

Basin wrench

Adjustable swivel head for inaccessible areas, for example back nuts on baths, basins and taps, hardened steel jaws

Art.-No.	Size	Length			Barcode
981000	AF 10 - 28 mm	250 mm		1	4 009319 810009

Draw tape

PVC, 15 m, 120 mm locating spring, eyeletted end, aid for passing cables through voids

Art.-No.	Ø	Length			Barcode
955815	3 mm	15 mm		2	4 009319 558154

Scissors / Marker pens

Multi-purpose snips

Straight blade, titanium coated, 2 component grip, specially suitable for paper, card, leather, thin plastics and carbon fibre

Art.-No.	Length			Barcode
021117	175 mm, in the display		Z 16	
021127	175 mm, bulk		5	

Multi-purpose snips

Cranked blade short, titanium coated, 2 component grip, specially suitable for paper, card, leather, thin plastics and carbon fibre

Art.-No.	Length			Barcode
021121	210 mm, in the display		Z 12	
021131	210 mm, bulk		3	

Multi-purpose snips

Cranked blade long, titanium coated, 2 component grip, specially suitable for paper, card, leather, thin plastics and carbon fibre

Art.-No.	Length			Barcode
021123	230 mm, in the display		Z 12	

Marker pen, narrow

Fine, pointed tip, waterproof, oil- and dirt proof, quick-drying, for marking wood, cement and concrete surfaces, copper, castings, wood and metal

Art.-No.	Colour	Contents			Barcode
376800	black	12		12

989966	1000	120 mm		1	4 009319 899660

Sink trap cleaner

Spring steel, coil length 400 mm, coil diameter 6 mm, with winding handle and grip sleeve, specially for compactm traps in baths and showers

Art.-No.	Ø	Length			Barcode
956020	6 mm	400 mm		2	4 009319 560201

Household drain cleaning coil

Spring steel, with winding handle, grip sleeve, for use on blockages in kitchen, bathroom and toilet eg for sink traps, WC bends, washing machine outflows etc.

Art.-No.	Length			Barcode
956021	1500 mm		2	4 009319 560218

Drain cleaning / Miscellaneous items

Drain cleaning coils

Spring steel, with winding handle, with claw and handgrip, for clearing blockages in toilets and drains

Art.-No.	Length			Barcode
956023	3000 mm		2	
956025	5000 mm		2	
956030	10000 mm		1	

Aluminium folding sack truck

sturdy tubular steel frame with aluminium carrier 48 x 25 cm, max. Carrying capacity 100 kg. Folds down to 71 x 48 x 6 cm, fits in any corner or car boot, suitable for shopping or moving house

Art.-No.	Contents			Barcode
786210	Collapsible aluminium sack truck		Z 6	

Telescopic quick support, low

continuously adjustable from 50-115 cm, rubber coated feet, swivel feet allows use on uneven surface, max load vertical 30 kg, at 65° 10 kg, for supporting ceiling boards, door frame construction and other building jobs

Art.-No.	Size			Barcode
980705	50 to 115 cm		1	

Telescopic quick support, high

continuously adjustable from 115 - 290 cm, rubber coated feet, swivel feet allows use on uneven surface, max load vertical 30 kg, at 65° 10 kg, for supporting ceiling boards and frameworks under construction

Art.-No.	Size			Barcode
980712	115 to 290 cm		1

kwb qualities

kwb stands for quality.

With the triple-graded quality system from kwb, you can always find the right tool for your particular needs and levels of use.

PROFESSIONAL

The best kwb quality, also suitable for long-term professional use.
5 year guarantee.

HIGH QUALITY

The high grade kwb quality, suitable for professional DIYers.

QUALITY

The everyday good quality from kwb, for DIY use.

kwb symbols in product tables

In some sections of our catalogue there are technical symbols in the product tables. Here is a brief explanation of these symbols.

Pliers	
	Plier length
Saws	
	Toothing
Building and tiling tools	
	Thickness

Screwdriver	
	Grip length T-grip screwdrivers
	Grip length DUO-LINE screwdrivers
	Width of screwdriver blade
	Length of screwdriver handle
	Working length DUO-LINE screwdrivers

Sockets	
	Bit length
	Working length
	Drill length
	Shaft diameter

Overview of the kwb pictograms and logos

								
Titanium	Stainless steel	Steel	Iron	Cast iron	Non-ferrous metals	Sheet metal	Profiles	Aluminium
								
Bronze	Plastic	Acrylic	Concrete	Concrete without reinforcement	Stone/masonry	Sand-lime brick	Aerated concrete	Hollow brick
								
Screed	Plaster	Plasterboard	Lightweight construction materials	Hardwood	Softwood	Thick softwood	Firewood	Profiled timber
								
Laminate	Wooden planks for terraces	Formwork	Plywood	Chipboard (coated)	Chipboard	Construction timber	Blockboard	Thin wood
								
Glass/crystal	Porcelain	Ceramics/wall tile	Floor tile	Porcelain stoneware	Marble	Floor clinker	Concrete stone	Exposed aggregate concrete
								
Granite	Roof tiles	Natural stone	Grout	Carpet remnants	Tile glue	Paint		
								
Made in EU	Made in Germany	Steel logo	Magnetic	Laser	Rust-proof	CV	HM
