

# **BIT-BOXES**

**...the perfect solution  
for any requirement!**

## Facts that GRIP

- **Trendy** and **competent** product range
- Always **up-to-date**
- High quality **TQ60** steel for outstanding performance even under extreme conditions.
- **Torsion zones** especially adapted to the application requirements
- The bits grip any screw with the all new **Mega Grip Ribs (MGR)**
- **Colour coding** on the package for easy allocation of different fields of application
- **Coloured rings** on each individual bit for quick search of the correct screw shape

## BIT-BOXES

The kwb BIT BOXES provide the perfect solution for anything that needs to be tightened or bolted. Different variations of boxes and sets include the choice of bits and holders adapted to the task. Each box is coloured differently so you can easily see which box to grab in order to get the right bits quickly and targeted. No more longsome searching for individual bits - just grab the proper set and simply start working. The result is quickly achieved and you have a safely fix of the box to your trousers. Many BIT BOXES from kwb are fitted with a belt clip which allows safely fix the box to your trousers. A huge benefit, in particular when working on ladders and at height.

**COMBINATION**

### The new kwb BIT BOXES in a patented design

In addition to the familiar boxes there will be an innovative choice of premium bit boxes for your cordless screwdriver. They have the proven clip to carry the box on the belt. You can open the box and even change the bit with the cordless screwdriver in your hand. Depending on the variation these boxes also include the often needed bits with a length of 50 mm. All combinations include a high-quality quick-action bit holder in the matching colour of the box as well as a box an adapter for 1/4 sockets.

## HANDY bit-boxes

You need a bit set which simply carries all the basics and does not include unnecessary ballast in an overdimensioned box? Then this box is just what you need! Smaller and slimmer than a cigarette pack, this set of 12 pcs. fits into any shirt or trouser pocket and even includes a real screwdriver with extractable magnetic holder.

Available in 6 different designs it is the ideal companion for people who exactly know what they need!

On each packaging you will find pictos explaining all relevant information. After having disposed the packaging colored rings make identification easily possible.

# ...THE RIGHT SOLUTION FOR ANY REQUIREMENT!

**EXTREME FORCE**

**TITAN**

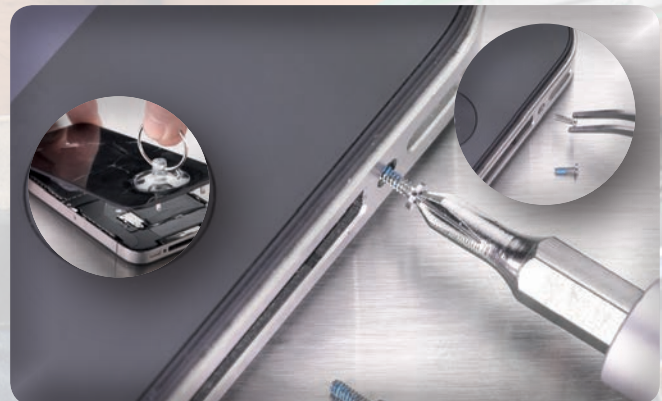

**SAFETY**

**DIAMOND**

**TORSION**

**INDUSTRIAL STEEL**

**BITS for BYTES**

## PICTOGRAMS EXPLANATION

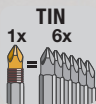

**Diamond bits**

**Diamond coating**  
Made in **Germany**

**Reduced contact pressure,**  
**easier working**

**Titanium** surface for extra-long service life

Suitable for use in **impact** wrenches

**QUICK-CHANGE**  
attachment bracket

**Magnetic**

**TQ60** steel is characterised by special hardness, which gives your bit an extremely long service life, however, it also provides the flexibility you need in particular for tightening at high resistance.

**Torsion zone** specially adjusted to the application requirements allows twisting of the tip of the bit at peak loads. Thus, the torsion zone protects the bits against premature breaking at high loads and increases the service life.

**"Mega Grip Rips"** – Profiles attached diagonally at the bit's head prevent the bit from sliding out off the screw during tightening also at high speed of the cordless screwdriver! Therefore overturning the bit which could result in a wrecked screw is almost completely excluded.

**COMBINATION bit box, 32-pcs.**

PROFESSIONAL ★★★★★

Combination bit box with bits for any application. Includes extreme force bits for impact screw drivers, stainless steel bits for stainless steel screw connections, torsion bits for tough applications and standard bits for common screwdriver-related tasks. Bits with different finish to distinguish the qualities. With magnetic quick-action bit holder and 1/4" adapter for socket wrenches. Box made of robust plastic with a handy belt clip.
